

WITHSTAND ALFALFA

- High resistance to Aphanomyces Race 2
- Great forage yield potential
- Superior forage quality
- Excellent winterhardness and persistence
- Perfect 30 out of 30 on the Wisconsin Disease Index

Withstand Alfalfa is a new, elite alfalfa that has high resistance to both Aphanomyces Race 1 and 2. This breakthrough along with a disease index rating of 30/30 insures that Withstand will perform well over a wide range of environmental conditions. With a very good winterhardness rating and 4 fall dormancy, Withstand is adapted to all areas where 3 and 4 fall dormancy varieties are planted. Whether it's for great forage yields, superior forage quality, persistence or very fast recovery after cutting, Withstand is an exceptional alfalfa for commercial hay, beef and dairy producers.
