

MAGNITUDE ALFALFA

- Very high forage yield potential
- Superior forage quality
- High multifoliate leaf expression
- Excellent winterhardiness and persistence
- 30 out of 30 on the Wisconsin Disease Rating Index

Magnitude raises the alfalfa performance bar another notch higher with excellent yield potential, quality, persistence and a great disease/insect resistance package. Magnitude is well adapted to a wide range of environmental conditions from the Great Plains to the Northeast, wherever Fall Dormancy 3 and 4 varieties are planted. Whether it's for intensive cutting management schedules or more traditional harvest management, Magnitude is the top choice for commercial hay, beef and dairy producers.
