

FSG 425

HYBRID GRAIN SORGHUM

(*Sorghum bicolor*)

- Outstanding yield performance
- Very wide area of adaptability
- Great agronomic package

FSG 425 is widely adapted from north to south across various soil types and environmental conditions. Good emergence and early vigor help FSG 425 get off to a fast start, while unmatched stress tolerance allows for dependable yield performance under adverse conditions. If you need a medium maturity hybrid with high yield potential, FSG 425 is the variety to ask for.
